Phone:9759923111 | Gmail: aryanshako@gmail.com | LinkedIn: <https://www.linkedin.com/in/aryan-chaudhary-4b7741281/>

Github: <https://github.com/AryanChaudhary123> | Leetcode: <https://leetcode.com/u/Aryan-Chaudhary58/>

Professional Summary

Highly motivated and analytical Computer Science Engineer (AIML-Honours) with expertise in algorithms, data structures, artificial intelligence, and software development. Proficient in C++, Python, and full-stack development, with a strong grasp of AI/ML model development, system design, and real-time application optimization. Strong problem-solving abilities combined with effective communication, adaptability, and teamwork to drive project success. Adept at working in dynamic environments, collaborating with cross-functional teams, and delivering scalable and efficient software solutions.

Education

University of petroleum and energy studies (UPES) 2022-2026
Btech-honours CSE AIML | Cgpa:8.30

St mary's convent school 2021-2022
12th Grade: 93% | 10th Grade: 85%

Technical skills

Programming: C, C++, Python, Java
Software & Tools: **Backend:** Data Structures & Algorithms, Database Management (SQL), Debugging, Operating System
Frontend: HTML, CSS, JavaScript, AngularJS
Others: Artificial Intelligence, Machine Learning, Deep Learning, Object-Oriented Programming (OOP), Problem Solving, TOC, OpenGL, Software Engineering Principles
Soft skills: Logical Reasoning, Decision-Making, Analytical Skills, Collaboration, Leadership, Communication, Organization.

Projects

Medical image captioning using transformers 2025- Ongoing

- **Tech Stack:** Python, ViTs, GPT/T5, K-ANs, HTML, CSS, JS, JSON, Tailwind
- AI-driven MRI analysis with **95% accuracy** and automated medical caption generation.
- Integrated K-ANs for contextual accuracy and GPT/T5 for structured medical reports.
- Enhanced medical diagnosis efficiency by 40%.

Conceptualizing linear data structure through visualization Aug 2024-Dec 2024

- **Tech Stack:** C/C++, OpenGL, Glut, Dear ImGui
- Real-time visualization of array, linked list, stack, and queue operations.
- Created an intuitive GUI using Dear ImGui for seamless interaction.
- Improved DSA comprehension by 30% through interactive visualization.
- GitHub: https://github.com/AryanChaudhary123/DSA_Algorithm_Visualizer/tree/main

Tour & travel Website (Web development) Jan 2024-May 2024

- **Tech Stack:** HTML, CSS, JS, AngularJS
- Responsive travel booking platform with secure login and interactive validation.
- Optimized front-end performance, reducing page load time by 20%.
- Integrated API for fetching live destination data to enhance user experience.
- GitHub: https://github.com/AryanChaudhary123/Tour_TravelWebsite/tree/my-new-branch | Demo: <https://drive.google.com/file/d/1a9JDZci7wBbVNXERz5gPei6IYX-eZi2Y/view?usp=sharing>

Internship

SAMARTH (Social Internship) May 2023 – Aug 2023

- Developed leadership, teamwork, and project coordination abilities through decision-making and event execution.
- Link: https://drive.google.com/file/d/1okV-ce86pfoVjIDxf-u02-JU4_2lMGnh/view?usp=sharing

Certificates

INT Devops Bootcamp September 2024

- Learned core DevOps concepts and principles, gained hands-on experience with AWS EC2 and S3 for managing virtual servers and storage deployment, and deployed a Netflix website clone using AWS services.
- Link: https://drive.google.com/file/d/1nBimiyHKIfw7k4E8T3J37cDiWCsJP_uL/view?usp=sharing

Python basic to advance GFG course December 2024

- learned Python concepts from basics to advanced level, covering topics such as data types, control structures, functions, OOPS, and modules, while practicing hands-on coding to reinforce their understanding.
- Link: https://drive.google.com/file/d/1Y44JTkfJ5Th75QtB1LwR9_MFZZpgtEhD/view?usp=sharing

Achievements

Earned a top-rated CodeStudio badge for problem-solving and DSA proficiency. May 2024-Present
<https://www.naukri.com/code360/profile/AryanChaudhary>

Solved problems on LeetCode across arrays, strings, dynamic programming, and graph algorithms. Oct 2024-Present
<https://leetcode.com/u/Aryan-Chaudhary58/>

Relevant Courses

DBMS, Operating System, Computer System Architecture, Data Communication and Networks, Software Engineering Principles, Artificial Intelligence & Machine Learning
