Phone:9759923111 | Gmail: aryanshako@gmail.com | LinkedIn: <https://www.linkedin.com/in/aryan-chaudhary-4b7741281/>

Github: <https://github.com/AryanChaudhary123> | Leetcode: https://leetcode.com/u/Aryan_Chaudhary58/

Education

University of petroleum and energy studies (UPES)
Btech-honours CSE AIML | Cgpa:8.30

2022-2026

St mary's convent school

12th Grade: 93% | 10th Grade: 85%

2021-2022

Technical skills

Programming: C, C++, Python, Java

Software & Tools: **Backend:** Data Structures & Algorithms, Database Management (SQL), Debugging, Operating System

Frontend: HTML, CSS, JavaScript, AngularJS

Others: Artificial Intelligence, Machine Learning, Deep Learning, Object-Oriented Programming (OOP), Problem Solving, TOC, OpenGL, Software Engineering Principles

Soft skills: Creativity, Time Management, Problem-Solving, Team Collaboration, Leadership

Projects

Medical image captioning using transformers

Present

- Tech stack: **Pyhton**, **Vision Transformers (ViTs)**, **Generative Transformers (GPT/T5)**, **Knowledge-Aware Networks (K-ANs)**, **HTML**, **CSS**, **Javascript**, **JSON**, **tailwind**
- Developed a web-based Medical Image Captioning system that analyzes MRI head scans to detect and classify brain tumors, generating captions based on the identified tumor type.
- Implemented data preprocessing, feature extraction, classification, and caption generation for insightful analysis.
- **Knowledge-Aware Networks (K-ANs)** integrate external medical knowledge to enhance contextual accuracy. **Generative Transformers (GPT)** then generate structured, readable captions based on the analysis.
- A web platform allows users to upload MRI scans, receive tumor classification, and obtain AI-generated captions.

Conceptualizing linear data structure through visualization

Aug 2024-Dec 2024

- Tech stack: **C/C++**, **OpenGL**, **Glut**, **Dear ImGui**
- **Designed & implemented** an interactive **data structure visualizer**, improving **DSA understanding** through **real-time animations** using **OpenGL**.
- Data structure visualization: **Arrays**: Perform and visualize operations like insertion, deletion, and traversal, **Linked Lists**: Explore singly and doubly linked lists with animated operations, **Stacks**: Visualize push and pop operations with real-time updates, **Queues**: Animate enqueue and dequeue operations.
- C++: Core programming language for implementing the application logic, OpenGL: For rendering graphical animations, Dear ImGui: To create an intuitive and interactive graphical user interface.
- GitHub Link: https://github.com/AryanChaudhary123/DSA_Algorithm_Visualizer/tree/main

Tour & travel Website (Web development)

Jan 2024-May 2024

- Tech Stack: **HTML**, **CSS**, **JavaScript**, **AngularJS**, **Form Validation**
- Created a website allowing users to book vacation packages from a variety of options around the globe, also It includes features such as user registration, login, and form validation
- GitHub Link: https://github.com/AryanChaudhary123/Tour_TravelWebsite/tree/my-new-branch
- Website Screen Recoding: <https://drive.google.com/file/d/1a9JDZci7wBbVNXERz5gPei6lYX-eZl2Y/view?usp=sharing>

Internship

SAMARTH (Social Internship)

May 2023 – Aug 2023

- Developed leadership, teamwork, and project management skills through decision-making and event execution.
- Link: https://drive.google.com/file/d/1okV-ce86pfoVjIDxf-u02-JU4_2lMGnh/view?usp=sharing

Certificates

INT Devops Bootcamp

September 2024

- Learned core DevOps concepts and principles, gained hands-on experience with AWS EC2 and S3 for managing virtual servers and storage deployment, and deployed a Netflix website clone using AWS services.
- Link: https://drive.google.com/file/d/1nBimiyHKIfw7k4E8T3J37cDlWCsjP_uL/view?usp=sharing

Python basic to advance GFG course

December 2024

- learned Python concepts from basics to advanced level, covering topics such as data types, control structures, functions, OOPS, and modules, while practicing hands-on coding to reinforce their understanding.
- Link: https://drive.google.com/file/d/1Y44JTkfJ5Th75QtB1LwR9_MFZZpqtEhD/view?usp=sharing

Achievements

CodeStudio Badge

May 2024-Present

- Link: <https://www.naukri.com/code360/profile/AryanChaudhary>

Leetcode Problem solving

Oct 2024-Present

- Link: https://leetcode.com/u/Aryan_Chaudhary58/

Relevant Courses

DBMS, Operating System, Computer System Architecture, Data Communication and Networks
